# ELT to Navigation Interface
## Artex Products

The most important thing we build is trust

- Allows the ELT to transmit latitude and longitude of the aircraft
- Connects C406 and G406 series ELTs to the aircraft Flight Management Computer or GPS receiver
- Programs ELT with the 24-bit address of the aircraft
- Compatible with systems such as:
  - Garmin
  - UNSD
  - ARNAV
  - IIMorrow
  - Bendix King
